Cobham, UK

Sep. 2021 – Jun. 2025

Cumulative GPA: 4.87/4.00 (Weighted) | Head of School's List, UKMT Kangaroo Merit Certificate, ABRSM Flute Grade 8

EXPERIENCE

Glenwood Private Equity

Summer Analyst

Seoul, South Korea

Jun. 2026 – Aug. 2026

- Delivered an investment pitch on a Korean automotive chassis systems company to 12 private equity professionals after conducting company and industry analysis, evaluating peer valuations through trading comparables, and developing the investment thesis and value-creation plan
- Constructed and analyzed historical financial statements for multiple companies, assessing cash generation, capital expenditures, interest expense, net income, EBITDA and gross profit margins, and valuation metrics including EV/EBITDA to identify key operating and financial trends
- Created Public Information Books and company and industry research materials, evaluating historical and projected operating performance, market outlooks, peer positioning, and absolute and indexed financial trends across prospective investment opportunities

Life Insurer Consulting Project

Strategy Consultant

Chicago, IL

Jan. 2026 – Mar. 2026

- Formulated a U.S. market entry strategy for a Korean life insurance company, analyzing how blockchain and tokenization could support new insurance products, improve policyholder access, and create more efficient beneficiary transfer processes for middle-class customers
- Proposed three business strategies across annuity liquidity, inheritance automation, and insurance contract securitization, evaluating each idea based on customer need, operational feasibility, regulatory fit, and potential value for the client's entry to the U.S. insurance market
- Designed a probate-focused inheritance solution to streamline beneficiary verification and non-cash asset transfer, with the potential to reduce estate settlement timelines from several years to a few months and probate costs from 3–8% to 1–2% of total assets through a digital-first workflow model

Impact America Fund Project

Investment Analyst

Chicago, IL

Feb. 2026 – Jun. 2026

- Researched SMB-enablement SaaS serving under-resourced small businesses, with a focus on software for real estate agents, analyzing customer pain points, workflow inefficiencies, market adoption drivers, and where early-stage tools could improve business operations
- Mapped the competitive landscape across 10+ early-stage real estate agent SaaS companies, comparing product positioning, customer segments, pricing models, monetization strategies, competitive differentiation, and relevance to IAF's impact-oriented investment mandate in the SMB software market
- Assessed 15+ Pre-Seed/Seed SaaS companies by analyzing retention signals, customer durability, and product use cases to evaluate fit with early-stage SMB software investment criteria, impact-driven return potential, and long-term customer retention quality

ACTIVITIES

Eleven: Private Investors of Chicago

General Member

Chicago, IL

Sep. 2025 – Present

- Attended weekly investment education workshops covering the three financial statements, WACC, DCF modeling, and basic valuation concepts, building familiarity with how investors assess company performance, financial assumptions, and market positioning
- Strengthened foundational finance knowledge by learning how revenue growth, margins, debt, cash flow, and discount rates connect to valuation, while deepening understanding of investment terminology, stock pitch preparation, and investor communication skills

UChicago Sustainable Investing Group

Investment Analyst

Chicago, IL

Sep. 2025 – Present

- Built an integrated three-statement and DCF model for Costco, projecting revenue from \$275B to \$423B through FY2030 and modeling EBITDA, CAPEX, NWC, and free cash flow; calculated WACC using peer beta analysis and evaluated terminal-value assumptions for an internal stock pitch
- Developed a buy-and-hold investment thesis by analyzing Costco's membership-driven revenue model, low-debt capital structure, and long-term growth opportunities across international expansion and e-commerce, while assessing key risks around market saturation and competition

Asian Leadership Initiative (ALI)

General Member

Chicago, IL

Mar. 2026 – Present

- Contributed to ALI's mission of empowering AAPI youth across UChicago, Harvard, Duke, NYU, and Columbia by supporting speaker events, KFS information sessions, and career-focused student engagement initiatives for undergraduate members exploring leadership and professional development
- Assisted national board members in planning the NYC Summit with 550+ attendees, supporting speaker coordination, attendee outreach, event materials, and programming for a leadership conference featuring Peng Zhao and Alex Chi and connecting students across multiple university chapters
